**Dr. Diosdado M. San Antonio**  
Director III  
Office of the Regional Director  
DepEd Region IV-A

Dear Dr. San Antonio;

Greetings from the bay!

Manila Ocean Park started as the first marine-themed park in the Philippines, and has now evolved into an integrated urban resort with several educational attractions.

**OCEANARIUM-** Spectacular view of amazing sea creatures divided into seven sections, named in Tagalog to instill national pride. Its diversity is both educational and entertaining.

**TRAILS TO ANTARTICA-** The first and only Penguin facility in the country. Features the Humboldt Penguins. Plus experience below zero degree temperature in the Snow Village.

**MARINE LIFE SHOW-** Fantastic show of Sea lions from South America. Watch them display their intelligence and charm.

**JELLY FISH EXHIBIT-** Fall in love with the graceful dancing of the sea fairies, called the **Jellies**.

**MUSICAL FOUNTAIN SHOW-** Grand display of water, music, and laser light presentation.

**BIRDS OF PREY KINGDOM-** Partnered with PAWB and DENR through the loan of Brahminy Kites, for public education, appreciation, and other conservation-oriented purposes.

**ALL STAR BIRD SHOW-** Amazing tricks from different Birds, which provide important environmental message for its audience.

**BACK OF THE HOUSE-** Scientific core of the Oceanarium operations. Newest attraction that utilizes scientific knowledge in explaining MOP's success in maintaining marine life under its care.

An important goal of Manila Ocean Park is to promote conservation and preservation of marine and bird species, which are threatened by extinction, pollution and climate change. In addition, part of our Advocacy program is to help children who are in need. Through the I-CARE Batang Pinoy program, we are given the opportunity to connect with the selected students from the Region to build a relationship that can change their lives. Through combined efforts we will be able to promote love for marine life, create environmental awareness, and support project I-CARE.

In line with this, we would like to renew our partnership with your institution and request an endorsement from your good office, for all the Private and Public Schools in Region IV-A. We look forward for a favorable response. Thank you in advance.

Respectfully yours,
