*To SDS for your information + appropriate action please. Thanks - Joel M. Esperon*

Sir:

With the blessing and cooperation of the Department of Education, the Philippine Professional Linkage from Various Disciplines, Inc. will conduct an International Training Seminar Workshop in Reading/Readshop on Reading with the theme: **A Worldwide View on Current Reading Problems** on December 5-7, 2014 at Stiarc, Lipa City, Batangas.

In view of this, the organization is requesting your office to please endorse this seminar in the region because it will greatly help teachers to minimize if not totally solve their problems about reading in their respective classes.

I. **Proposed Title:** International Training Seminar Workshop in Reading/Readshop on Reading with the theme: **A Worldwide View on Current Reading Problems.**

II. **Rationale:**

World-wide study was made by UNESCO on the method used in teaching both children and adults on how to read and write. Discussions of some of the reading problems are identified and are being faced in one form or another throughout the world.

Without doubt the most dramatic reading problems which the world now faces is related to the elimination of illiteracy among adults as easily and quickly as possible. Constructive works in many areas were done concerning the level of literacy that is required to ensure both individual and group progress.

As implied, little more than a foundation for reading has been established when children or adults are able to recognize words independently and accurately and to grasp the meaning of passages.

This seminar is timely especially in the advent of the early childhood education and the K+12 curriculum which is making at par with other countries.

Hoping that after this seminar/workshop teachers will find new way of methodologies that are used by teachers worldwide that can augment the existing skills in teaching reading in our country.
