**HON. DIR. DIOSDADO M. SAN ANTONIO**  
Regional Director  
Department of Education (DepEd)  
Regional Office IV-A

Dear Hon. Director San Antonio;

Greetings from CYWTAC!

Multisensory techniques are frequently used for students with Regular Schools those with Learning Disabilities (LD) and Children with Special Needs. Multisensory teaching techniques and strategies stimulate learning by engaging students on multiple levels. They encourage students to use some or all their senses to gather information about a task, link information to ideas they already know and understand, perceive the logic involved in solving problems, learn problem-solving steps, tap into nonverbal reasoning skills, understand relationships between concepts and learn information and store it for later recall.

Students whether in Regular Schools or SPED Centers typically have learning differences in one or more areas of reading, writing, math, listening comprehension and expressive language. Multisensory techniques enable students to use their personal areas of strength to help them learn. They can range from simple complex depending on the needs of the student and the task at hand.

Recognizing the importance of multi-sensorial teaching strategies to children, the Children & Youth Wellness Technical & Advocacy Center (CYWTAC), Inc. organized the 1<sup>st</sup> National Workshop, First in the Philippines entitled: "**Multi-Sensorial Teaching Strategies for Regular Students and Children with Learning Disabilities and Special Needs**" on April 27-29, 2016 at Skylight Convention Center, Roxas St., Puerto Princesa City, Palawan. In this workshop, teachers/educators will be taught different multi-sensorial strategies that may be used to address the diverse needs of students in their classrooms. This framework encourages classroom regular teachers, special educators, administrators, supervisors, consultants and education university students to work together to further enhance their teaching internal tools & develop local support systems for students with specialized learning requirements.

It is our hope that the strategies they will learn from this workshop will provide teachers and other educators with resources, guidance, and support to enrich the learning of all students. The Registration Fee to this workshop shall be as follows:

*To SDS  
for your appropriate  
action, please.  
Thank you! J. Feb 2016*

**FIRST NATIONAL WORKSHOP ON MULTI-SENSORIAL TEACHING STRATEGIES  
FOR REGULAR STUDENTS AND CHILDREN WITH LEARNING DISABILITIES  
AND SPECIAL NEEDS OF THE CHILDREN AND YOUTH WELLNESS  
TECHNICAL AND ADVOCACY CENTER (CYWTAC)**

The Children and Youth Wellness Technical and Advocacy Center (CYWTAC) Inc. will conduct its *First National Workshop on Multi-Sensorial Teaching Strategies for Regular Students and Children with Learning Disabilities and Special Needs* from April 27 to 29, 2016 at the Skylight Convention Center, Roxas St., Puerto Princessa City, Palawan.

The Workshop aims to:

- a. train the participants on the different multi-sensorial strategies which may be used to address the diverse needs of students in their classrooms;
- b. enhance their teaching internal tools and develop local support systems for students with specialized learning requirements; and
- b. provide the teachers and other educators with resources, guidance, and support to enrich the learning of all students.

The target participants are SPED teachers, special educators, department heads, administrators, counselors, supervisors, consultants and education university students from both public and private schools.

Participation of both public and private schools shall be subject to the *no-disruption-of-classes policy* stipulated in DepEd Order No. 9, s. 2005 entitled *Instituting Measures to Increase Engaged Time-on-Task and Ensuring Compliance Therewith*.
