Dr. San Antonio,

Salutations!

The Philippine Association of Food Technologists Inc. - Beta Chapter, a duly recognized academic organization of the University of the Philippines Los Baños, extends an invitation to your good office to take part in this cause oriented activity. In pursuit of its objectives to promote academic excellence, efficient and effective usage of existing resources, and to emphasize the significance of food science and technology, we will be organizing the **40th Food Science and Technology Week (FSTW)** to be held on **November 7-12, 2016**. This event is especially organized to present the current status of the Philippine food industry and to promote the innovations and opportunities that are essential for global competitiveness. Also, this affair is a good avenue to stress the importance of food science and technology to the public by presenting current developments in food production and processing and emphasizing the significance of food science and technology here in the country and in the global scale.

The Food Science and Technology Week, in line with the theme of the 55th PAFT Convention 2016, "FOOD TECHNOLOGY: The Next Leap Forward - Food Safety, Food Security, Food Defense, Food Regulation and Innovation Interconnected", is an event that caters students and differ-

ent communities inside and outside UPLB. Within the week, the organization will be organizing activities such as a high school food science and technology quiz contest, a poster-making contest, and a food symposium and demonstration.

In accordance with this, we would like to ask for your support by **recommending these activities to both public and private high schools in Region 4A (CALABARZON)**. Attached with this letter is the portfolio of activities of PAFT- β and the mechanics/objectives for each event intended for high school students. If there are any questions and matters needed to be discussed, please feel free to contact the undersigned through mobile phone and electronic addresses below. We will be very grateful if we will be given an opportunity to discuss the details of the said event in person.

We would very much appreciate your affirmative consideration of this request. Thank you very much and more power!

With sincerest regards,

Ralph Josh DG. Recaido
40th FST Week Over-all Chairman
