action, please.  
Thanks - God Bless  
Jan 25 Jan 2017

Dear Dir. SAN ANTONIO:

Greetings!

We would like to request for the endorsement of your good department of **The CAL ICT Summit 2016** in Laguna. This year let CAL encourage and inspire spirit and achievement by discovering the power of motivation to build school essence, morale and camaraderie.

The objectives are as follows:

1. To inspire teachers and students when it comes to conveying (ICT) Information Communication Technology;
2. To have people whose lives changed through the use of (ICT) Information Communication Technology share their stories;
3. To show that incorporating ICT with Education we are building for our students, parents, and teachers a stronger foundation for the future.

CAL hopes to invite Private School Administrators and ICT Teachers or Coordinators. The Summit is sponsored by CAL Philippines, Inc. Registration is **FREE**, while transportation and other incidentals of the participants are chargeable to the private school funds.

<b>THEME</b>	<b>CAL ICT SUMMIT 2016</b> <i>INSPIRE</i>
<b>RATIONALE</b>	This year, let CAL encourage and inspire spirit and success by discovering the power of motivation in building school essence, morale and camaraderie. CAL chose this year's theme to motivate and show how ICT can be relevant to students' lives and how it can be made more effective. Let us build on their interests and life experiences; so that the students' attitude, skills and knowledge can be developed in meaningful ways. If one is inspired, they become

We at CAL hope that **The CAL ICT Summit 2016** materializes in Laguna. Let us help our partner schools by giving them this opportunity to be motivated through the learnings and talks that will be shared with this summit, which can be applied in their daily needs not only in schools.

Sincerely yours,

## **Frequently Asked Questions**

### **What is CAL?**

Computer Assisted Learning (CAL) was founded in Singapore in 1986. Until the base of operations was moved to the Philippines in 1996, CAL had established a network of IT learning centers that operated in over 10 countries. The CAL Learning Center was the very first of its kind in the country to offer international IT curricula and certification for both young learners and professionals. Managed by a team of IT experts and educators, the center pioneered the use of licensed software and ISO-certified operational systems.

As technology became more accessible to many and computer proficiency became a standard, CAL saw the need to integrate its IT curriculum where it matters the most: basic education. Instead of learners coming to its Center for IT skills training, CAL brought the learning to the students through the schools. Since then, CAL's ICT curricula have been used every year by over 85,000 students from more than 300 of our partner schools nationwide.

The advent of the K-12 system this 2016 is a milestone for which CAL is very well prepared. Designed using the spiral approach, CAL's complete ICT courseware is ready for implementation from Nursery to Senior High School.

### **What makes CAL ICT Program Unique?**

Compared to other ICT programs, CAL uses a spiral approach to ICT education 10 years before the advent of the K to 12 program. The Educator's Manual provides teachers with daily lesson plans, weekly session plans, and yearly plans which are in sync with the DepEd prescribed policies on the ICT curriculum.

### **What are CAL's products?**

- EdICT - CAL EdICT (Education in Information and Communications Technology) is designed to enhance learning through a series of curriculum for preschool to high school levels. The program aims to develop and reinforce ICT skills of young learners to prepare them for a technology-driven world.
- SHiP - CAL Senior High Integration Program (CAL SHiP) prepares ICT specialized and employable graduates for success in our highly digitized world through our complete Senior High-ready curricula for teachers and students. The program has six complete ICT courseware for Senior High ICT tracks: animation, computer hardware servicing, computer programming, illustration, technical drafting and web development.
- CIP - CAL Computer Integration Program (CAL CIP) offers complete courseware, peopleware, hardware and software packages. Through CAL CIP, we can renovate your classrooms into world class computer laboratories equipped with upgraded hardware and the appropriate licensed software to supplement the use of the CAL curricula.
- MacLab - CAL MacLab offers complete courseware, peopleware, Mac hardware and Mac software packages. Through CAL MacLab, we can renovate your classrooms into world class computer laboratories equipped with the latest Mac hardware and the appropriate licensed Mac software to supplement the use of the CAL curricula.
