Objectives:

At the end of the seminar-workshop, the participants will:

- Gain understanding the framework of TEACCH;
- Enable participants assess and address challenges with attention and executive function of students with autism;
- Understand and treat students with ASD through organization of a highly structured environment thru the application of the principles of principles of TEACCH

Methodology:

This seminar-workshop will include lecture, large and small group round table discussion, individual reflection, audio-visual presentations, videos, case studies (based upon information that the participants will have brought with them about a particular child in their program/classroom), and experiential activities. The format is designed to be engaging and encouraging of continual interaction between the learners and instructor.

Who are invited?
