Subject: REQUESTING ASSISTANCE DURING GLOBE TECHNICAL SITE SURVEYS

The Office of the Undersecretary for Administration (OUA), in partnership with Globe Telecom, Inc., will be conducting Technical Site Surveys scheduled from October 2020 to October 2021. Please see details below for further information.

1. Site Location
   a. Determine the most appropriate location for equipment and antenna systems on the building and/or lot side.

2. Access
   a. Check the easiest site access route for equipment deliveries, installation and maintenance activities.
   b. If the proposed location is on a rooftop, check the status and routes for rooftop access.

3. Site Details and Data Gathering
   a. Determine the complete site address for implementation team’s reference.
   b. Get the accurate site coordinates (longitude/latitude) for planning and implementation purposes.
   c. Verify and check the best location for equipment and antenna systems.
   d. Determine the measurement of possible lease area which is required in the lease agreement.
   e. Check the power supply status if it is sufficient or will require a power upgrade based on the given requirements.
   f. Check for the transmission information and telecommunication infrastructure capacity of the building (i.e., fiber and/or copper cables), cable routes and access points for the equipment.
g. Record the site contact name and phone number for further coordination.

4. Documentation
   a. Take photos of the building and lot site which will be used as reference for the proposed equipment location and antenna systems.
   b. Get 360-degree panoramic views for planning purposes.
   c. Get photos of site access road to the main road for the implementation team.
   d. Determine the location of available power supply and check if there is a need to upgrade this based on the given power requirements.
   e. Determine the cable routes for the fiber cable connections on site.

5. Soil Boring Test / Structural Investigation
