**Dear Atty. Escobarte,**

Greetings!

We are happy to inform you that "Nurture Nature" Comprehensive School Program of JCastle in partnership with MaryLindbert International and Department of Education will be implemented this school year in select schools in Region 4A and the National Capital Region.

The JCastles' Nurture Nature Comprehensive School Program is an advocacy on the importance of actively taking care of the environment. It teaches school children to practice taking care of the natural world through actions like conservation, reducing and recycling waste, and promoting sustainability. It will help Kinder to Grade 2 students learn how to read with comprehension.

The program includes in its protocols the distribution of FREE workbooks and teaching guides on the above topics that would augment materials in teaching the importance of taking care of the environment to Kinder- Grader 2 pupils. MaryLindbert Int'l and JCastle will also visit select schools to promote Nurture Nature programs on taking care of the environment. Moreover, the program will also conduct a Quiz Bee open to all elementary schools in the Region. MOHS and MaryLindbert Int'l will provide prizes to participants and winners of the contest.

Inline with the above, we would like to request your kind office for an advisory to inform the schools included in the program (please see attached list) that the JCastle Nurture Nature Comprehensive School Program will be implemented in their schools and that they will receive above mentioned FREE materials and services.

Your usual kind accommodation is highly appreciated. God bless and more power!

Very truly yours,

**Jonathan G. Pauig**  
Vice President and Head Operations
