Dear Sec. Sonny:

Greetings from Far Eastern University, Manila!

Cognizant of our shared objective of delivering quality education to Filipino learners, the Far Eastern University would like to request your permission to allow the institution through its Admissions Officers and Associates to visit high schools in Regions I – V, VIII, NCR, and in select schools in the Middle East for the promotion of its program offerings. Furthermore, to continuously collaborate with these institutions, we would also like to request the privilege to promote the application process of the FEU College Admission Test (FEUCAT) for incoming students for SY 2027-2028.

Far Eastern University has been consistently excelling in providing higher quality education to everyone. The sterling performance of FEU graduates in licensure examinations is a clear manifestation of the university's commitment to developing highly competitive individuals. For the past five years, FEU has been consistently producing topnotchers in the licensure board examination in its different degree program offerings such as Medical Technology, Nursing, Accountancy, and Architecture. It also continuously subjects itself to different accreditations not only to improve its current processes, services, and system but also to showcase its competitive edge. Far Eastern University has eighteen (18) degree programs currently certified under the ASEAN University Network Quality Assurance (AUN-QA) framework, consisting of seventeen (17) undergraduate programs and one (1) master's degree program, in addition to being locally accredited by Philippine Association of Colleges and Universities Commission on Accreditation (PACUCOA) and Philippine Accrediting Association of Schools, Colleges and Universities (PAASCU).

Far Eastern University leads the Philippine HEIs, as it was ranked 11th in the country in the QS Asia University 2026, moving to the 761-770 bracket. The University was also granted autonomous status by Commission on Higher Education (CHED), recognizing its excellence in instruction, research, and extension services. FEU was likewise named a national winner at the 49th People Management Association of the Philippines (PMAP) awards. For several years now, the university has also prided itself on being included among the few universities in producing Ten Outstanding Students of the Philippines. FEU's strong international and local linkages with industry partners contribute to the high employability of its alumni.

For this coming school year 2027-2028, we would like to request your endorsement for us to be able to visit and conduct the FEUCAT in high schools in Regions I-V, NCR, and several Philippine schools in the Middle East.
